

DERMATOLOGICAL

**E45 Itch Relief Cream** treats and soothes the itching caused by eczema, dermatitis, pruritus and other dry skin conditions. The anti-itch ingredient, lauromacrogols rapidly relieves the itching caused by these problem, dry skin conditions.

Specially formulated with urea, a moisturiser found naturally within the skin, **E45 Itch Relief Cream** is non-greasy, moisturising and quickly absorbed to soothe your skin leaving it feeling calm and comfortable.

**E45 Itch Relief Cream** can be used by the elderly, adults and children.

Also available in 100g and 500g.

Dermatologically Tested - Allergy Screened - Perfume Free.

**Directions:** Check that the tube seal is intact before first use. Apply to the affected area twice a day. For external use only. Do not use if allergic to any of the ingredients or you suffer from severe and widespread redness, oozing or infected skin sores or if the affected area has suddenly become inflamed. If you suspect an allergic reaction stop using the product. If symptoms persist or anything unusual happens, talk to your doctor or pharmacist. Do not use on the breasts immediately prior to breast feeding. E45 Itch Relief Cream is usually well tolerated; however side effects may occur which can include a burning sensation, redness, itching or pus.

**KEEP ALL MEDICINES OUT OF THE REACH AND SIGHT OF CHILDREN.**
