Kalms Night

One-A-Night

Valerian Root Extract. 385 mg

Read all of this leaflet carefully because it contains important information for you.

This medicine is available without prescription. However you still need to take Kalms Night One-A-Night carefully to get the best results from it.

- Keep this leaflet. You may need to read it again.
- Ask your pharmacist if you need more information or advice.
- You must contact a doctor if your symptoms worsen, or do not improve after 4 weeks.
- If any of the side effects become serious, or if you notice any side effect not listed in this leaflet, please tell your doctor or pharmacist.

In this leaflet:

1. What Kalms Night One-A-Night is and what it is used for
2. Before you take Kalms Night One-A-Night
3. How to take Kalms Night One-A-Night
4. Possible side effects
5. How to store Kalms Night One-A-Night
6. Further information

1. What Kalms Night One-A-Night is and what it is used for

Kalms Night One-A-Night is a traditional herbal medicinal product containing valerian root, used for the temporary relief of sleep disturbances, based on traditional use only.

2. Before you take Kalms Night One-A-Night

Do not take Kalms Night One-A-Night if you:

- are allergic to any of the ingredients (see Section 6 for a complete list of ingredients)
- are already taking a medicine to help you sleep

Taking other medicines

Please tell your doctor or pharmacist if you are taking or have recently taken any other medicines, including:

- medicines which make you drowsy
- medicines obtained without a prescription

Taking Kalms Night One-A-Night with food and drink

Alcohol may increase the sedative effect of Kalms Night One-A-Night. Therefore, excessive alcohol consumption should be avoided whilst you are taking Kalms Night One-A-Night.

Pregnancy and breastfeeding

Kalms Night One-A-Night is not recommended for use during pregnancy or when breastfeeding. Ask your doctor or pharmacist for advice before taking any medicine.

Driving and using machines

Kalms Night One-A-Night is used traditionally to help you sleep. If you feel sleepy:

- do not drive
- do not operate any tools or machinery

3. How to take Kalms Night One-A-Night

The recommended dose is one tablet 30 to 60 minutes before bedtime. If necessary, on subsequent evenings, swallow one additional tablet earlier during the evening. Not recommended for anyone under 18 years old.

As the effects of this product may not occur immediately, the tablets should be taken continuously for 2-4 weeks.

Do not take more tablets than the leaflet tells you to.

If you take more Kalms Night One-A-Night than you should

Seek medical advice in the event of an overdose.

If you forget to take Kalms Night One-A-Night

Do not take a double dose to make up for a missed dose. Just take the next dose when it's due.

4. Possible side effects

Like all medicines, Kalms Night One-A-Night can cause side effects, although not everybody gets them.

Tell your doctor if you notice any of the following mild side effects:

- nausea
- abdominal cramps

If any of the side effects become serious, or if you notice any side effect not listed in this leaflet, please tell your doctor or pharmacist.

If you get any side effects, talk to your doctor, pharmacist or qualified healthcare practitioner. This includes any possible side effects not listed in the package leaflet. You can also report side effects directly via the Yellow Card Scheme at www.mhra.gov.uk/yellowcard or search for MHRA Yellow Card in the Google Play or Apple App Store.

By reporting side effects you can help provide more information on the safety of this medicine.
