

## METANIUM NAPPY RASH OINTMENT 30G

PAGE 1

The image shows a yellow banner for Metanium Nappy Rash Ointment. On the left, the brand name 'Metanium' is written in a large, blue, heart-shaped font, with 'Nappy Rash Ointment' below it in a smaller blue font. Underneath, the ingredients '(titanium dioxide, titanium peroxide, titanium salicylate)' are listed in a smaller grey font. A white pill-shaped button contains the text 'Treatment for Nappy Rash'. On the right, there is a photograph of a baby sitting in a white nappy, framed by a white heart shape. Below the photo, the text 'Soothes & treats' is written in a blue, cursive font.

**Do not discard this carton as it contains important information about Metanium Nappy Rash Ointment.**

Metanium is a topical ointment, which rubs easily into the skin to treat nappy rash.

### How to use

It is important that you follow these instructions carefully.

- After removing soiled nappy, clean and wash the affected area, drying with a soft towel.
- Wash your hands and dab a small amount (pea size) of the ointment over the sore area with your fingertip.
- It is important to spread the ointment thinly so that the skin texture can be clearly seen through it.
- Repeat at each nappy change to treat nappy rash.

- Keep the tube nozzle clean of residue product to ensure the cap can be closed tightly.

### Do not use

Do not use Metanium Ointment if your baby is allergic (hypersensitive) to any of the ingredients. **! If baby accidentally swallows some** see a doctor straight away. Take the pack with you to show which medicine has been swallowed.

### Possible side effects

Very rarely Metanium Ointment can cause skin irritation. If any unusual effects occur, discontinue

use and consult your pharmacist or doctor. If symptoms persist consult your doctor.

### Reporting of side effects

If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed above. You can also report side effects directly via the Yellow Card Scheme at: [www.mhra.gov.uk/yellowcard](http://www.mhra.gov.uk/yellowcard).

By reporting side effects you can help provide more information on the safety of this medicine.
