Apply it to the skin.
Avoid contact with the eyes, nose and mouth.

Adults, the elderly and children

Treatment of Athlete's Foot

- Wash and dry the foot thoroughly each morning and night.
- Smooth the cream onto the affected area.
- Take care to make sure the cream is massaged between the toes and then dust with Mycota Powder.
- Wear clean socks or stockings each day dusted inside with Mycota Powder.
- Continue this treatment for one week after all signs of infection have disappeared.

Prevention of Athlete's Foot

- Rub in the cream and dust socks or stockings inside with Mycota Powder each day.

If you swallow some

If you accidentally swallow some, see a doctor straight away. Take the pack with you to show which medicine you have swallowed.
